

# CERTIFIABLY CLEAN KRATOM

## PROUD PARTNERS WITH THE AMERICAN KRATOM ASSOCIATION

We realize it's one thing to say our Kratom is pure and safe; it's another thing entirely to prove it. Kats Botanicals is proud to be one of the few Kratom suppliers that meets the American Kratom Association's guidelines for Current Good Manufacturing Practices (cGMP).

## THE KATS BOTANICALS STORY

### Share the Love.

Our Founder and CEO, Justin Kats, has been experiencing the benefits of Botanicals for years. The time finally came that he wanted to bring these wellness benefits to everybody around him and all over the world. The two most important things for Justin was, sourcing only the best products and also creating a platform where like-minded people can talk with each other about their issues so they could get the help they deserve.

### Only the Best.

In 2016, Kats Botanicals went from an idea to a real living opportunity to supply our customers with premium, organic and sustainable products to consumers.

### Kats Botanicals Today.

Today, Kats Botanicals brings plant-based power to the people with a broad range of premium, laboratory-tested Kratom powder and capsules, mineral-rich Shilajit, Turmeric-infused products, and other botanical products celebrated for their numerous benefits for the user.

# PLANT POWERED RELIEF

## WHAT IS KRATOM?

Kratom belongs to the evergreen family and is related to the coffee plant. The essential effect of Kratom that many people report is a sense of well-being, lending a feeling of calm and optimism to those who use it.

Our Kratom powder is harvested for both maturity and potency. We make sure to lab test each strain to ensure quality, cleanliness, and strength. We want to give you plenty of options when you choose your favorite strain.

## WHY USE KRATOM?

For centuries, this ancient medicinal plant has been used to improve the lives of millions of people throughout the world. Today, people are more educated about how they can control their health and wellness through natural resources and Kratom has become a source of relief for many.

A single serving (2.4 grams of powder or 4, 600-milligram capsules) can promote feelings of enhanced well-being, ease, and comfort while making it easier to deal with the ups and downs of everyday life. Different strains can provide different effects that often vary from person to person, so it's important to experiment with various strains to find the ones that work best for you.

# DISCOVER OUR FULL LINE OF 30+ KRATOM STRAINS

### GREENS & GREEN BLENDS

Green vein strains promote your well-being and are a great way to optimize your day. Green strains help improve your overall daily balance and add to your health and wellness.
